### **DETAILED ACTION**

Applicant's amendment of 6 June 2002 is entered. Claim 10 is cancelled. Claims 1, 2, 8, and 9 are amended. Claims 12-24 are added.

### ***Election/Restrictions***

Claims 1-9 and 11-24 are generic to a plurality of disclosed patentably distinct species comprising polyether siloxanes of the general formula (I). The vast number of species encompassed by the claims constitutes a serious burden on the Examiner. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species and the claims readable thereon, even though this requirement is traversed (37 CFR 1.143). By single species is meant a single polymer. The polymer can be identified by the following: 1) by naming the polymer according to IUPAC standards, 2) by pictorial representation, 3) by identifying all of the variables of formula (I), or 4) by identifying an example or claim that sets forth a single polymer.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
